客席仕様

☐ 全席利用（2000席）☐ 2階席まで（1428席）[illegible]

<div>大ホール 音響反射板 □1マス：1818mm×1818mm</div>	メモ欄
 <p>This diagram shows the top view of a hall layout. At the top center is a rectangular stage area. Below it, two large, angled acoustic reflection boards are positioned, each with a semi-circular sound dispersion pattern. The floor is covered with a grid of square acoustic reflection boards. In the lower-left corner, there is a control room labeled '操作室' and a lower exit labeled '下手出待'. In the lower-right corner, there is an upper exit labeled '上手出待'. The entire layout is overlaid on a grid where one square represents 1818mm x 1818mm.</p>	
 <p>This diagram is identical to the top one, showing the top view of the hall layout with the stage, reflection boards, and exits on a grid.</p>	
 <p>This diagram is identical to the top one, showing the top view of the hall layout with the stage, reflection boards, and exits on a grid.</p>
